

## Getting the Latest Tournament Results

Periodic updates are published to the IGBO website. When updates (new versions of the results database) are available, notifications are sent to tournament officials on file with IGBO. These updates are easily downloaded and applied to the database:

- Go to the IGBO website [www.igbo.org](http://www.igbo.org) and navigate to the tournament "TAD Viewer" page under "Tournaments". Or, go directly to the TAD Viewer page with this link: <http://www.igbo.org/Tournaments/TAD>.
- Under the "Database Updates" paragraph, click on the link next to the text "Get Latest TAD Data". The link (and the file that you download to your system) is named "TAD\_UPDATE.exe". (Note that the size of the file (1.14 MB) may be different.)

Get Latest TAD Data [TAD\\_UPDATE.exe](#) (1.14 MB)

- Clicking on the link will prompt you to save this file on your system. Save the file and write down the folder where the file was saved.
- Locate the file on your system and double click on it. This will execute a very short program and will notify you within seconds that the database has been successfully updated.
